

By Naku Charles Lwanga

Here is a brief report on the medicines and medical supplies RMF Uganda bought in Kampala and delivered to the Nakivale Refugee Settlement.

RMF was received warmly by the Refugee Desk Officer, Western region, Mr. Omondi, as you can see below: The drugs provided by RMF were mainly anti-malarial drugs, antibiotics, pain killers, etc. as it had been assessed and was requested by the health workers at Nakivale Health Centres III and II. Below is the medical personnel receiving the drugs at Nakivale Health Centre III. This boosted both health centres of Nakivale in their work as they are receiving a new influx of refugees from Burundi.
